Muhammad Haider

Full-Stack & AI Engineer

muhhaider906@gmail.com | github.com/Haiderlikecodes | linkedin.com/in/muhammad-haider-697802290

PROFILE

Full-Stack and AI-focused software engineer with 4+ years of experience building modern web applications, robust REST APIs, and intelligent chatbot workflows using retrieval-augmented generation and fine-tuned models. Experienced with Next.js, React, Django REST Framework, Python, ChromaDB, and application security testing.

EXPERIENCE

Full-Stack & AI Engineer | **Software Development Company | 4+ years**

- Built full-stack web applications with Next.js and React frontends connected to Django REST APIs.
- Designed intelligent chatbot workflows using RAG, fine-tuned language models, and ChromaDB for context-aware responses.
- Developed responsive UI components and integrated streaming chat experiences.

Junior Pentester | **Zeroxinnovation**

- Conducted web application, network, and API penetration testing aligned with OWASP Top 10 and NIST practices.
- Identified SQL injection, XSS, and configuration vulnerabilities and collaborated on secure coding fixes.
- Used Burp Suite, Nmap, Metasploit, Wireshark, Python, and Bash for security assessments and automation.

SELECTED WORK

Intelligent RAG Chatbot
Privacy-first assistant combining a fine-tuned language model with ChromaDB retrieval to provide grounded, context-aware responses.

Flight & Travel Booking Platform | **Currently in progress**
Full-stack flight booking experience in development, with an intelligent travel assistant powered by RAG and fine-tuned models.

Django + Next.js Platforms
Responsive products backed by maintainable REST APIs, secure authentication, SQL data models, and modern React interfaces.

Security Assessment Automation
Python and Bash tooling supporting reconnaissance, API testing, and repeatable web application security workflows.

TECHNICAL SKILLS

Frontend: Next.js, React, JavaScript, Tailwind CSS, jQuery
Backend: Django, Django REST, Python, Node.js, REST APIs
AI: LLM fine-tuning, RAG, ChromaDB, local LLMs, chatbot workflows
Data: SQL, relational data modeling, vector search
Security: Burp Suite, Nmap, Metasploit, Wireshark, OWASP
Tools: Git, Postman, Linux, Bash

Portfolio: haiderlikecodes.github.io/Muhammad-Haider/

EDUCATION

Bachelor of Computer Science
NUML (National University of Modern Languages)

FOCUS

Private AI integrations, scalable web systems, secure APIs, and polished developer experiences.
